

INDUSTRIE 12mm

Ideal rope for those who are fond of safe diameters for work at height. The INDUSTRIE rope model is a true historical reference in the sector, recognized for its great strength (46 daN/g). This 12mm diameter rope is no exception to the rule, and will appeal to people who prefer safe diameters. Moreover, it has a specific sheath construction which gives it a record handling and resistance per gram.

- Standard : CE EN 1891 - Type A
- Weight : 94 g/m
- Material : Polyamide
- Breaking load : 4200 kg (daN)
- Resistance with node in 8 : 2200 kg (daN)
- Strength with sewn termination : 1900 kg (daN)
- Elongation under 50/150kg : 2,5
- Percentage of sheath : 34
- Percentage of core : 66
- Sheath slip: 0.3
- Water shrinkage : 2,4
- Number of drops factor 1: 20
- Impact force (factor 0.3): 5.6 kN
